JOURNAL OF THE NATIONAL CANCER INSTITUTE

VOLUME 3 *August 1942—June 1943* BETHESDA, MD.

CONTENTS

	Page
Effect of Carcinogens on Small Organisms. IV. Exposure of Bacteria to High Temperatures, by R. R. SPENCER and M. B. MELROY	1
Comparative Enzymatic Activity of Transplanted Hepatomas and of Normal, Regenerating, and Fetal Liver, by JESSE P. GREENSTEIN, JESSE E. EDWARDS, HOWARD B. ANDERVONT, and JULIUS WHITE	7
Induction of Cirrhosis of the Liver and of Hepatomas in Mice With Carbon Tetrachloride, by JESSE E. EDWARDS and ALBERT J. DALTON	19
Effect of Supplementary Methionine Plus Choline on the Incidence of *p*-Dimethylaminoazobenzene-Induced Hepatic Tumors in the Rat, by JULIUS WHITE and JESSE E. EDWARDS	43
Sulfhydryl Groups in Normal and Tumorous Hepatic Tissue Extracts Before and After Addition of Salts, by JESSE P. GREENSTEIN	61
Genetic Analysis of Susceptibility to Induced Pulmonary Tumors in Mice, by W. E. HESTON	69
Inheritance of Susceptibility to Spontaneous Pulmonary Tumors in Mice, by W. E. HESTON	79
Limits of Accuracy in Experimental Carcinogenesis as Exemplified by Tumor Induction With Ultraviolet Radiation, by HAROLD F. BLUM, HUGH G. GRADY, and JOHN S. KIRBY-SMITH	83
Relationships Between Dosage and Rate of Tumor Induction by Ultraviolet Radiation, by HAROLD F. BLUM, HUGH G. GRADY, and JOHN S. KIRBY-SMITH	91
Effect of Climatic Environment Upon the Genesis of Subcutaneous Tumors Induced by Methylcholanthrene and Upon the Growth of a Transplantable Sarcoma in C3H Mice, by EDWARD W. WALLACE, HELEŇE M. WALLACE, and CLARENCE A. MILLS	99
Photometric Histochemical Determination of Thymonucleic Acid in Experimental Epidermal Carcinogenesis, by R. E. STOWELL	111
Genetics of the Susceptibility of Mice to a Transplantable Melanoma, by JULIET M. SPANGLER, J. M. MURRAY, and C. C. LITTLE	123

525428—43

Page

Induction of Hepatic Lesions, Hepatomas, Pulmonary Tumors, and Hemangio-Endotheliomas in Mice With *o*-Aminoazotoluene, by HOWARD B. ANDERVONT, HUGH G. GRADY, and JESSE E. EDWARDS 131

Production of Subcutaneous Sarcomas in Mice With Tars Extracted From Atmospheric Dusts, by JOSEPH LEITER, MICHAEL B. SHIMKIN, and M. J. SHEAR 155

Production of Tumors in Mice With Tars From City Air Dusts, by JOSEPH LEITER and M. J. SHEAR 167

Adenocarcinoma of the Pyloric Stomach and Other Gastric Neoplasms in Mice Induced With Carcinogenic Hydrocarbons, by HAROLD L. STEWART and EGON LORENZ 175

A Spontaneous Fibrosarcoma of the Foreleg and Paw in a C3H Mouse, by JESSE E. EDWARDS, ALBERT J. DALTON, JULIUS WHITE, and THOMAS N. WHITE 191

A Review of Some Spontaneous Neoplasms in Mice, by STUART W. LIPPINCOTT, JESSE E. EDWARDS, HUGH G. GRADY, and HAROLD L. STEWART 199

Carcinogenic Effectiveness of Ultraviolet Radiation of Wavelength 2537A, by HAROLD F. BLUM and STUART W. LIPPINCOTT 211

Influence of Limited Application of Methylcholanthrene Upon Epidermal Iron and Ascorbic Acid, by CHRISTOPHER CARRUTHERS and V. SUNTZEFF 217

Reduction of Total Lipid-Protein Nitrogen Ratio of Mouse Epidermis by a Single Application of Methylcholanthrene, by L. F. WICKS and V. SUNTZEFF 221

Induction of Leukemia in Mice by Methylcholanthrene and X-Rays, by D. P. MCENDY, MARY C. BOON, and JACOB FURTH 227

Metabolism of Induced and Spontaneous Leukemias in Mice, by DEAN BURK, HERBERT SPRINCE, JULIET M. SPANGLER, MARY C. BOON, and JACOB FURTH 249

Action of 5, 9, 10-Trimethyl-1, 2-Benzanthracene on the Skin of the Mouse, by JONATHAN L. HARTWELL and HAROLD L. STEWART 277

Creatine and Creatinine Content of Transplanted Hepatomas and of Normal and Regenerating Liver, by JESSE P. GREENSTEIN 287

Incubation of Citrulline and Ammonia With Normal and Neoplastic Hepatic Tissues, by JESSE P. GREENSTEIN 293

Induction of the Carbon Tetrachloride Hepatoma in Strain L Mice, by JESSE E. EDWARDS, W. E. HESTON, and ALBERT J. DALTON 297

Relationship Between the Lethal Yellow (A^y) Gene of the Mouse and Susceptibility to Induced Pulmonary Tumors, by W. E. HESTON 303

Technique Suitable for Quantitative Studies on the Mammary Tumor Inciter of Mice, by HOWARD B. ANDERVONT, MICHAEL B. SHIMKIN, and W. RAY BRYAN . . 309

Cytology of Hepatic Tumors and Proliferating Bile Duct Epithelium in the Rat Induced With *p*-Dimethylaminoazobenzene, by ALBERT J. DALTON and JESSE E. EDWARDS 319

Intestinal Adenocarcinoma and Intra-Abdominal Hemangio-Endothelioma in Mice Ingesting Methylcholanthrene, by JULIUS WHITE and HAROLD L. STEWART . 331

Carcinogenic Action of Two Azo Compounds in Mice, by HOWARD B. ANDERVONT and JESSE E. EDWARDS 349

Response of Strain A Female Mice to Small Amounts of *o*-Aminoazotoluene, by HOWARD B. ANDERVONT and JESSE E. EDWARDS 355

Page

Influence of Hybridization Upon the Occurrence of Mammary Tumors in Mice, by HOWARD B. ANDERVONT 359
Absorption of Subcutaneously Implanted Pellets of Diethylstilbestrol in Men, by MICHAEL B. SHIMKIN and LEO ZON 367
Types of Tumor Induced by Ultraviolet Radiation and Factors Influencing Their Relative Incidence, by HUGH G. GRADY, HAROLD F. BLUM, and JOHN S. KIRBY-SMITH 371
Role of Thrombocytopenia in Hemorrhage Produced in Sarcoma 37, by MICHAEL B. SHIMKIN and LEO ZON 379
Hydrolysis of Glutathione by the Cathepsins of Normal Rat Tissues and Rat Hepatoma 31, by MARY E. MAVER and J. W. THOMPSON 383
Cytochrome Oxidase and *d*-Amino Acid Oxidase in Tumor Tissue, by JOSEPH SHACK 389
Further Studies of the Liver Catalase Activity of Tumor-Bearing Animals, by JESSE P. GREENSTEIN 397
Note on the Copper Content of the Tissues of Tumor-Bearing Animals, by JESSE P. GREENSTEIN and J. W. THOMPSON 405
Peculiar Growth Lesions in Frogs Induced by Irradiation of Sperm Cells With X-Rays, by PAUL S. HENSHAW 409
Tumor Enzymology, by JESSE P. GREENSTEIN 419
Effect of a Diet Relatively Low in Cystine on the Production of Spontaneous Mammary-Gland Tumors in Strain C3H Female Mice, by JULIUS WHITE and HOWARD B. ANDERVONT 449
Note on the Comparison of Dosage of Methylcholanthrene on the Production of Leukemia and Sclerotic Lesions in Dilute Brown Mice on a Restricted Cystine Diet, by JULIUS WHITE, G. BURROUGHS MIDER, and WALTER E. HESTON 453
Quantitative Experiments on the Production of Subcutaneous Tumors in Strain A Mice With Marginal Doses of 3, 4-Benzpyrene, by JOSEPH LEITER and M. J. SHEAR 455
Growth Rate and Number of Spontaneous Mammary Carcinomas and Riboflavin Concentration of Liver, Muscle, and Tumor of C3H Mice as Influenced by Dietary Riboflavin, by HAROLD P. MORRIS and WILLIAM V. B. ROBERTSON 479
Degradation of Cystine by Normal Liver but not by Transplanted Hepatomas, by JESSE P. GREENSTEIN 491
Hydrogen-Ion Concentration of Normal Liver and Hepatic Tumors, by HERBERT KAHLER and WILLIAM V. B. ROBERTSON 495
Quantitative Analysis of Dose-Response Data Obtained With Three Carcinogenic Hydrocarbons in Strain C3H Male Mice, by W. RAY BRYAN and MICHAEL B. SHIMKIN 503
Wavelength Dependence of Tumor Induction by Ultraviolet Radiation by Harold F. BLUM 533
Effect of Intensity on Tumor Induction by Ultraviolet Radiation, by HAROLD F. BLUM 539

Page

Neoplasms and Other Lesions of the Eye Induced by Ultraviolet Radiation in Strain A Mice, by STUART W. LIPPINCOTT and Harold F. BLUM 545

Changes Induced in a Strain of Fibroblasts From a Strain C3H Mouse by the Action of 20-Methylcholanthrene (Preliminary Report), by W. R. EARLE 555

Morphology of Sarcomas Derived From Fibroblasts Previously Treated With 20-Methylcholanthrene *in Vitro* (Preliminary Report), by ANDERSON NETTLESHIP 559

Study of a Spontaneous Mouse Rhabdomyosarcoma, by ANDERSON NETTLESHIP . . 563

Some Fundamental Aspects of Tumor Development Illustrated by Studies With Ultraviolet Radiation, by HAROLD F. BLUM 569
